TRYING TO REVISE THE EXCISE LAWS

MANY CHANGES SUGGESTED BY MR. HILL'S COM

MISSION-DR. CROSBY'S SUGGESTIONS The Commission for the Revision of the Excise Laws resumed their sessions yesterday morning at Room No 65 Bible House, all the Commissioners being present. Mr. Stern suggested that some regulation should be made concerning who should grant licenses to steamboats which ran through more than one county, and offered a resolution proposing that the licenses should be granted by the State License Board. Dr. Crosby objected to this as involving a tyrannical sway over He thought that every town in which liquo is sold should grant the license for it. It was then proposed that steamers should pay a higher license at the terminal D intermediate points liquor should be sold on board without license. Mr. Stern thought that sale should not be permitted on steamboats except when they are in motion, as otherwise they could lie at a pier and sell liquor all day for a license of \$50, while a corner barkoeper has to pay \$200. The subject was tabled for the present.

Mr. Thomann, who had been invited by the other commissioners to submit a draft for a bill to restrict a synopsis of his plan, which apportion the number of barrooms to population at the desired ratio, without the number of saloons according to the population would population at the desired ratio, without doing injustice to any one now in business, as would result if the number should be arbitrarily reduced at

The question of "Misdemeanors and Penalties" next came up, and Dr. Crosby moved that the penalty for breach of the Excisor law by selling without a license or by selling adulterated liquors shall be fine and imprisonment, and also that second offences against the Excise laws shall on conviction receive at least double th laws shall on conviction receive at least double inc.

Both motions were carried. On motion of Dr. Crosby
it was then made a misdemeanor to sell bluor to disorderly persons, persons in a state of intoxication,
habitual drunkards, Indians and persons under eighteen
years of age. This raises the limit of minority from
sixteen years of age to eighteen.

The Commission then adjourned until 10:30 this
morning.

SUCCESSFUL CLEARING OF STOCKS The new experiment in the clearing of stocks, undertaken through the Manbattan Trust Company by a number of prominent Wall Street firms, has met with some measure of success.
